Decision of Changeren.-There is nothing more to be esteemed than a manly throners and decision of character. I like a person who knows his own mind and sticks to it; who sees at once what is to be done in given circum. stances and does it. He does not beat about the bush for difficulties or excuses, hat goes the shortest and most effectual way to obtain his own ends, or to nocomplish a esclut object. If he can serve you he will do so; if he cannot, he will say to without keeping you in needless suspense, or laying you under protended obligations.

Ler nes Be.-A good uncedote is related of one of the Detroit increantile. gentlement who was travelling on business a short time since, in one of the Ontario boats. He went to the clerk, and asked to be shown his state-room.-The clerk banded bin a key (marked letter B the mark of the room,) at the same time pointing to a door at some little distance. Our friend went in the direction isdirated, but opened the door next to his own, where he discovered a hady passenger making her toilet, who upon the stranger's appearance, uttered a low scream; "go away! go away!" cried she-" Letter B," screamed the clerk. "I am not touching her at all?" returned the indignant merchant.

From "The Wellow Herald," published at Wellun, N. G., January 25, 1850, which said—

"Patert Medicines," either atmosphere of Patent Medicines, either atmosphere of the patent of the Patent Medicines, either atmosphere of the patent of the Patent Medicines, either atmosphere of the patent of the Patent Medicines, either atmosphere of the patent of the Patent Medicines, either atmosphere of the Patent Medicines.

Wellin, N. G., January 25, Re50, which said"Patient Medicines."

"It is very splaint that we make any allusion
to Patient Medicines, either approving or offer
wise. Unfartunately for the country, and for honest and conscientions inventors and veoders of
these neclicines, the land is becoming flooded with
quark perjuntions, that are node solone for profit,
and are fit not even for the dogs. In his state of
things it is hard to tell which are, and which are
not worth havings. If a person gets an indifferent

apt to tendema the adult of them and bay not
more, and inventors must ready blanch those of first

the ill encress which attends the effort of allie de-serving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Blitters, 'to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are allogether Vegetable in their composition, without one drop of Alcohal-ic Spirits in them. This medicine is innocent, but strengthening in its effects, and righly deserv-ing of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

Judge M. M. Nonh said, in his 'Weckly Mes-

ing of an unbounded popularity, which, when it becomes known, it will, no dealt, fully enjoy."

Judga M. M. Noah said, in his "Weekly Messenger," January B, 1850,

"Ir. Hosfand's Oroma Bitters.—Here is a preparation which the leading present in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most relebrated physicians of modern times—the late Ir. Christopher Willer and Honolaid provided the University of Jean, private physician to the king of Prussia, and one of the greatest medical withers Germany has ever produced. He was reaplastically the enemy of hambag, and therefore a medicine of which he was the inventor and enclorer may be confidently relied on. He specially recommended it in Liver Complaint, Openessa, Bebility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered or dition of the stomach, the liver and the intestines. Nine Philadelphia appers express their curviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel varranted not only in calling the attention of mr readers to the present proprietor's (Ir. C. M. Jarken's) preparation, but in recommending the article to all afflicted."
